Quote

“What I haven't heard the critics discuss is the cost of inaction. If we don't reform the system, if we leave things as they are, health-care inflation will cost far more over the next decade than health-care reform. We will pay far more for far less—with millions more Americans uninsured or underinsured. This would threaten not just the health of Americans but also the strength of the American economy.”

Add or change this opinion item's references

This item argues for the position Act should be passed on the topic Patient Protection and Affordable Care Act.
