Quote

“ Trump's decision does not invalidate the entire agreement. But a U.S. withdrawal frees the world's other industrial states to back off their own commitments. It removes the U.S. from playing a lead role in ensuring that other nations reported their emissions accurately. And its sends a signal to businesses here and abroad that the Trump administration will not be a partner in growing the clean-energy sector and in encouraging more sustainable development. ”

Add or change this opinion item's references

This item argues against the position United States was right to withdraw on the topic United States withdrawal from the Paris Agreement.
