Quote

“ It's probably too much to ask McCain and Obama to lay out, in chapter and verse, how they'd like to restructure the financial regulatory system. But they could start by zeroing in on the real sources of today's problems, not the aspects that play best to their constituencies. And they can help make today's bailout expensive enough for Wall Street that it won't seem so costly to Main Street.”

Add or change this opinion item's references

This item argues for the position United States should bail out the banking industry on the topic Economic crisis of 2008.
