**Quote**

“ "The pact comes with side benefits just as critical as cutting back on nuclear hardware. It reels in an increasingly feisty and unpredictable Russia on a key issue. It could lead to further weapons treaties. It could win Moscow's cooperation in confronting Iran and its bomb-making ambitions. Drawing down the numbers of nukes would make it easier to persuade other nuclear nations to do the same." ”

Add or change this opinion item's references

This item argues for the position Treaty should be ratified on the topic New START.
