Quote

“ "The United States is the only advanced industrial nation that does not provide or guarantee health care coverage for virtually all of its citizens. It is a moral obligation to end this indefensible neglect of hard-working Americans. The bill does not quite reach full universality, but by 2019, fully 94 to 95 percent of American citizens and legal residents below Medicare age will have coverage."

”

Add or change this opinion item's references

This item argues against the position Act should not have been passed on the topic Patient Protection and Affordable Care Act.
