**Quote**

“ With the weakest recovery since World War II, historically high chronic unemployment and a shockingly low workforce participation rate, the administration correctly fears the economic consequences of its own law — and of the political fallout for Democrats as millions more Americans lose their jobs or are involuntarily reduced to part-time status. Conservatives have been warning about this for five years. This is not rocket science. Both the voluntary and forced job losses were utterly predictable. ”

Add or change this opinion item's references

This item argues for the position Act should not have been passed on the topic Patient Protection and Affordable Care Act.
