Quote

“Such disparate treatment of lower income workers would create a powerful incentive to flee employer coverage for the exchanges. And there would at the same time be pressure to extend the subsidy to workers generally satisfied with the plans provided at work but displeased about paying so much more for them than other similarly situated people. This would vastly increase the cost of the plan, since Congress is not known for resisting constituent pressure.”

Add or change this opinion item's references

This item argues against the position Act should be passed on the topic Patient Protection and Affordable Care Act.
