Quote

“ Bush's aim of making Iraq a democracy and projecting American power in the region as a way of fighting the war on terrorism is a failure. The invasion has only improved al-Qaida's ability to recruit terrorists and undermined U.S. long-term interests in the region. It has, for sure, made Iran the regional power. The question once the elections are out of the way will be how best to deal with those consequences.”

”

Add or change this opinion item's references

This item takes a mixed stance on the position Coalition troops should pull out on the topic Post-invasion Iraq.
