Quote

“ It is time to apply sanctions to persuade Iran to stop uranium enrichment, and to provide some modest low-calorie sweetener to make the deal palatable. Iran's right to nuclear fuel cycle technology ended when it began violating its safeguards agreement almost 20 years ago. And it is apparent that the real purpose of Iranian enrichment is to provide fuel for weapons, not reactors.”

Add or change this opinion item's references

This item argues for the position Economic sanctions should be imposed on Iran on the topic Iranian nuclear crisis.
